REPORT OF SUPERINTENDENT OF SCHOOLS

To the Londonderry School Board:

During the year ending June 30, 1935, Londonderry School Board has continued the policy of systematic improvement of schoolhouses and school facilities. Two years more of this same policy should bring all of the ten schools to an excellent condition.

In last year's report I pointed out the fact that \$15,500 seems to be the normal cost of these schools as now administered. The actual cost of schools for the year ending last June was \$14,276.17. The estimated budget for next year, which will end June 30, 1937, is \$14,977.06. It would seem, therefore, that the maximum amount of total expenditures is \$15,000. The probable available resources, including State-aid, average close to \$6,000. This shows that in general the tax levy to balance Londonderry's school budget is in round numbers, \$9,000. The exact figures given in the Tabulated Statement on page 65 of this report is \$8,985.30. This is approximately \$6,000 less than the average levy of five years ago.

At the present time the schools are running with unusual freedom from disturbing influences.

It may interest the taxpayers to know that the average cost per pupil for Elementary Schools in Londonderry is \$58.18, while the average cost in New Hampshire is \$76.93.

G. H. WHITCHER,
Superintendent of Schools
